SUMMARY

Full Stack MERN Developer with hands-on experience building responsive, production-ready web applications using React, Next.js, Node.js, Express.js, and both MongoDB and PostgreSQL. Skilled in translating UI designs into scalable components, building secure REST APIs, integrating role-based authentication and payment systems, and delivering full-stack projects independently from database design to deployment. Currently expanding backend expertise while working professionally as a frontend developer in a remote, collaborative environment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js 15, Tailwind CSS, Bootstrap, Framer Motion, Shadcn UI, TanStack Query

Backend: Node.js, Express.js, REST API Development

Database: MongoDB, PostgreSQL, Prisma ORM, Firebase

Auth & Payments: JWT Authentication, HttpOnly Cookies, Stripe, SSLCommerz

Tools & Platforms: Git, GitHub, Vercel, Render, VS Code

WORK EXPERIENCE

Depth Search

Aug 2025 – May 2026

Frontend Developer

Remote

- Built modern, responsive, and production-ready web interfaces using Next.js, React, TypeScript, and Tailwind CSS.
- Translated UI/UX designs into clean, reusable, and scalable frontend components.
- Integrated REST APIs and managed asynchronous data flows for dynamic, data-driven applications.
- Collaborated with backend developers and designers in a remote team to ship production-ready features.
- Optimized application performance, responsiveness, and cross-browser compatibility while maintaining a clean, maintainable code structure.

PROJECTS

FixItNow Home Service Platform (GitHub)

2026

Full Stack Developer

- Built a full-stack home service marketplace connecting customers with technicians, using Next.js 15, TypeScript, Node.js, Express.js, Prisma ORM, and PostgreSQL.
- Designed role-based authentication and authorization for Customer, Technician, and Admin roles using JWT with HttpOnly cookies and automatic token refresh.
- Implemented end-to-end booking workflow (Pending, Accepted, Completed, Cancelled) with atomic transactions to prevent double-booking.
- Integrated SSLCommerz payment gateway for secure online payments and built a review system for completed bookings.
- Developed admin and technician dashboards for managing users, services, categories, and bookings; deployed backend on Render with Prisma Postgres and frontend on Vercel.

Synthera – AI-Powered Online Shopping Platform (GitHub)

Aug 2025 – Sep 2025

MERN Developer

- Built an AI-driven e-commerce platform with role-based dashboards for Admin, Seller, and User, using React, Node.js, and Express.js.
- Developed dynamic dashboards, real-time product management, and responsive UI for browsing, cart, and checkout flows.
- Integrated an AI-powered chatbot for customer assistance, improving user engagement and support experience.

EDUCATION

Government Shah Sultan College, Bogura

2025 – 2029 (Expected)

Bachelor of Social Science (Honours) — Political Science

LANGUAGES

Bangla — Native English — Intermediate
