PROFESSIONAL SUMMARY

Full Stack Developer with hands-on, production-level experience designing and shipping complete web applications end-to-end — from database architecture to deployment. Proficient across the modern JavaScript stack (Next.js, React, Node.js, Express.js, PostgreSQL, MongoDB), with particular strength in secure authentication, payment integrations, and clean REST API design. Comfortable owning features independently and collaborating effectively in fast-paced, remote engineering teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js 15, Tailwind CSS, TanStack Query, Framer Motion, Shadcn UI

Backend: Node.js, Express.js, REST API Development

Database: PostgreSQL, Prisma ORM, MongoDB, Redis, Firebase

Auth & Payments: JWT, HttpOnly Cookies, Google OAuth, Stripe, SSLCommerz

Tools & Platforms: Git, GitHub, Vercel, Render, VS Code, Jira

WORK EXPERIENCE

Depth Search — Frontend Developer | Remote

August 2025 – July 2026

Worked as a remote Frontend Developer within a distributed team, building and shipping production-ready interfaces and gaining hands-on experience across the modern React/Next.js ecosystem.

- Built modern, responsive interfaces using Next.js, React, TypeScript, and Tailwind CSS, translating UI/UX designs into clean, reusable, scalable components.
- Integrated REST APIs and managed asynchronous data flows for dynamic, data-driven features.
- Collaborated remotely with backend developers and designers in an agile workflow to ship production-ready features on time.
- Strengthened skills in performance optimization, responsiveness, and cross-browser compatibility.

PROJECTS

Nexora — AI-Powered Freelance Marketplace [Live Link](#) | [Git Repo](#)

Full Stack Developer

- Designed a relational marketplace architecture with PostgreSQL and Prisma, modeling interconnected users, profiles, jobs, applications, contracts, payments, and reviews.
- Implemented an AI-powered matching system connecting Freelancers with relevant job opportunities based on skills, experience, and requirements.
- Developed an end-to-end hiring workflow covering job posting, application management, Freelancer selection, contract lifecycle, and payment processing.
- Integrated Stripe for secure payments and Redis (Upstash) for caching and authentication-related workflows.

FixItNow — Home Service Platform [Live Link](#) | [Git Repo](#)

Full Stack Developer

- Built a full-stack home service marketplace connecting customers with technicians using Next.js 15, TypeScript, Node.js, Express.js, Prisma ORM, and PostgreSQL.
- Implemented an end-to-end booking workflow with atomic transactions to prevent double-booking.
- Integrated SSLCommerz for secure online payments and built a review system; deployed backend on Render and frontend on Vercel.
- Developed admin and technician dashboards for managing users, services, categories, and bookings; deployed backend on Render with Prisma Postgres and frontend on Vercel.

EDUCATION

Government Shah Sultan College, Bogura
